## LOCAL NEWS.

Mr and Mrs John Armbruster are visiting at present with Mr and Mrs Jac Armbruster at Vernon, B.C. Later on, John will attend a convention in Vancouver of the Coast Lumbermen's Association.

Alec Zeiler returned yesterday from Prince George, where he had been spending a vacation.

A convention of immigration agents was held in Edmonton this week, with Paul Werner representing Stony Plain.

Sommerfeld & Mayer, the agents for the Chevrolet, have arranged to have a chassis demonstration of the New Chevrolet Six, in Stony Plain, on Wed., Feb. 6. Addresses by General Motor experts, from the factory at Oshawa, will acquaint those who attend this interesting demonstration with the innovations and improvements which have been incorporated in the new Chevrolet Six. An interesting film "With Chevrolet Across Canada" will be shown on the screen. As in the Chevy demonstration here last season, prizes will be given those drawing the lucky numbers. Wohlsein, eat apples; get em at Hardwick's.

Whist Drive Prize Winners.

The following are the winners in the Band's whist drive series—

Men—1 Max Stackleis  
2 Carl Fischer  
3 Peter Sware  
Low, John Staub  
Ladies—1 Mrs McLean  
2 Miss F Gordon  
3 Mrs J H Miller  
Low, Miss B Wudel

Death of Mr. George Stevens.

The death of Mr. George Stevens, which took place on Wednesday, Jan. 23d, was very sudden. The deceased, who was in his 73d year, had been suffering for a few days from influenza, but was not confined to his bed. He also had been a sufferer from asthma for some years. Upon entering his room on Wednesday morning, his son Levi found him lying upon the floor and forthwith lifted him up on the bed, where he passed out without a struggle in a few minutes.

The late Mr Stevens came from Ontario as an early pioneer, many years ago, living in the Inga district.

He leaves to mourn his loss his wife; one son, Levi; a daughter, Miss Laura, of Washington; another daughter Mrs Wetzlaffner, died in 1910.

This service, which took place on Friday, was largely attended. The service was conducted by Rev G. A. Sander, who spoke from the text: "So teach us to number our days that we may apply our hearts to wisdom."

Interment was made at the Spruce Grove cemetery.

## A Bid For

## Freedom:

THE trend of business is towards amalgamation and centralization — building up vast organizations through combinations of many small ones. In the face of this development the farmer as a single unit has found himself isolated, helpless and working at a disadvantage.

The first step taken by producers to remedy their position was the formation of producers' co-operatives, of which the Wheat Pool is the most notable example. In the Pool the strength of unity has been demonstrated time and again.

For the protection of himself and his family, and for the advancement of agriculture in general, every wheat producer in Alberta should join the Alberta Wheat Pool.

There is no question but that the Wheat Pool has corrected abuses, narrowed grain trade profits, stabilized markets, and lessened disastrous speculation for the benefit of all wheat growers in Canada.

Undoubtedly the Wheat Pool has paid higher average prices to its members than the Grain Trade has paid to non-Poolers.

The Pool elevator system, operated on a non profit basis, has given its patrons service at cost, fair weights and grades, and a measure of protection never before accorded.

## TO THOSE WHO HAVE NOT YET JOINED THE WHEAT POOL:

ARE you going to build and maintain private grain and elevator systems forever and provide abundant profits for stockholders, year after year?

OR are you going to join the Wheat Pool ranks and work for your own interests and the interest of your Pool neighbors?

**The Alberta Wheat Pool**  
Lougheed Building, Calgary

# Too Much ACID

Many people, two hours after eating, suffer indigestion and they call it "acid trouble." Get rid of it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has relieved thousands of physicians and physicians. One spoonful in water neutralizes many times its volume in stomach acids and at once. The symptoms disappear in five minutes.

## This Changing World

Annual stock-taking is a wise procedure on the part of every individual and nation; it is absolutely essential in the case of the man in business if he is to make a success of the enterprise in which he is engaged. This is true whether the man be the manager of a large industrial concern, or the owner of a small country store. It also applies to the man who is engaged in the business of farming because to succeed he must know where he made money and where he lost it; he must find the leakages before he can plug up the holes.

Any such stock-taking should include a study of the trend of business throughout the country and the world to the extent that such study is possible. Especially, in view of the close commercial relations existing between them, and the fact that they do a larger business with each other than with any other country, the people of Canada and the United States should understand not only what is taking place in their own country, but also in the neighboring country. For these reasons recent analysis of United States business in 1928 as compared with 1927 are of value to us.

These comparative studies reveal some startling developments and trends in business. For example, soft coal output decreased 6.1 per cent., and petroleum production 0.9 per cent., while the output of electricity increased 9.2 per cent., indicating the rapidity with which electric power is replacing steam power. Railway loadings dropped 0.6 per cent., and gross railway income by millions of dollars, but freight movement by motor trucks progressed over a larger mileage, and mail and express movements were heavier, while the output of automobiles increased 24 per cent., thus showing the modern trend to more rapid transportation of commodities.

Department store sales increased 1.9 per cent., mail order sales jumped 14.9 per cent., and chain store sales 17.1 per cent. On the other hand wholesale trade fell off 1.5 per cent., indicating steady progression in more direct selling from producer to ultimate consumer. Possibly one of the effects of this development is found in the increase of 1.2 per cent. in the number of business failures, notwithstanding the year was one of great production, large constructive development and prosperity.

The modern trend in the larger use of electricity, more and still more and efficient machinery, and more direct and rapid transportation is emphasized by the fact that, in a year of amazing growth in production and construction, employment decreased 3.3 per cent. In contrast with this is the fact that union wage rates were 0.4 per cent. higher, indicating that, while there was decreased employment, those in employment were paid slightly higher wages.

The buying power of United States farmers rose 6 per cent., revealing an improvement in the agricultural situation. Business profits rose 11 per cent., savings bank deposits 8.9 per cent., life insurance sales 5 per cent.

The above figures would seem to indicate certain factors and lessons deserving of earnest consideration by all business men. The fact that business profits rose 11 per cent., but business failures increased indicates that the business man who keeps himself informed of, and adjusts his operations in conformity with, changing conditions succeeds while the uninformed and ultra-conservative loses out. To the artisan, clerk and working man the figures seem to say that in this machinery age the man with knowledge and initiative, in a word, the efficient man, is in demand and at even higher wages, while the inefficient finds increasing difficulty in securing work.

The same economic forces are at work in Canada as in the United States, and the same tendencies are to be noted, the only difference being that the country is not so highly industrialized and has much greater natural resources still, an unexploited state calling for more labor. In the commercial world, especially in the retail merchant class, the problem of the mail order house, the chain store, the consolidation of merchandising in the hands of great concerns, and the allied problems of transportation and distribution, are becoming quite as acute, and if he is not to go under the small dealer must meet these changing conditions. He cannot do it alone, single-handed, but his chances of success are good through co-operation.

In the past few years, and particularly in 1928, a great change has taken place on our western Canada farms through the introduction of the combine, the motor truck, and the building of good roads. Through these means production will be increased on the one hand, while less human labor will be required—that is, there is the same tendency in agriculture as in manufacturing industry. This means that, large as western farms are on the average compared with other countries, they will, as operating units, become larger, with all the changes involved. Here, too, the further application of co-operative principles and methods will make for success.

## Guard Against FLU — Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nervilene. The antiseptic properties of Nervilene quickly destroy the germs in the throat. Of course if the chest is sore Nervilene should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nervilene will prove most effective. It is hardly necessary to point out that the bowls should be sterilized, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nervilene and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

## Recipes For This Week

(By Betty Barclay)

### BAKED ORANGE CUSTARD

3 eggs yolks  
1 egg white  
 $\frac{1}{2}$  cup sugar  
Few grains salt  
Grated rind 1 orange  
 $\frac{1}{4}$  cup orange juice  
 $\frac{1}{4}$  cups milk.

Beat yolks and white of eggs until light; add sugar, salt, grated orange rind and orange juice. Scald milk in double boiler; pour gradually, while stirring constantly, over egg mixture; pour into buttered custard cups, placed in a pan of hot water, and bake in a moderate oven until custard becomes firm. Cool, and serve with whipped cream on top, or turn out and surround with sections of orange and orange syrup.

### THOUSAND ISLAND DRESSING

1 cup mayonnaise  
2 hard-cooked eggs  
2 tablespoons tomato catsup  
2 tablespoons pimento stuffed olives  
2 tablespoons chili sauce  
2 tablespoons pickled onions.

To the mayonnaise add all of the other ingredients finely chopped.

### Fertilizers From Trail, B. C.

Further experiments with superphosphate from the smelter at Trail, B. C., will be conducted in 1929 by the Alberta Department of Agriculture in conjunction with the Dominion experimental farms and A.C.P.R. experimental farms. An abundant quantity of this fertilizer will be available to meet demands.

## NEW HEALTH FOR TIRED-OUT WOMEN

Found in the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Autism comes on gradually, beginning with loss of appetite, irritability to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the palpitation of the heart, headache, frequent backaches and a distinct desire, due to an inability to obtain rest at night.

Cases of this kind, if neglected, become more serious, but if taken in time, Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to restore full health and physical strength. The pills actually make the rich red blood that stimulates and strengthens every organ and nerve in the body. Their strength and active results are apparent immediately and restful sleep is had. What Dr. Williams' Pink Pills can and will do is shown by the case of Mrs. D. N., who says: "I was in a bad run-down condition. I was pale, my appetite was very poor, and the least exertion left me completely tired out. In fact I was barely able to do much work about the house. I decided to try Dr. Williams' Pink Pills and after taking a few cans was soon in better condition, and really in health and strength and was able to go about my work with no sign of the former weakness. I cheerfully recommend them to all others who may be in a run-down condition."

You can get the pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Galahad had his good points, but only our higher civilization could produce a drug clerk who says, "Thank you" after selling a postage stamp.

Completed in itself, Mother Graves' world. External use does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

**Rover's Punishment**  
Nurse (auspiciously): "What have you been doing, Miss Ellen?"

Ellen: "Rover's eaten my dolly's slippers, so I've just been punishing him."

"How?"  
"I've been to his kennel and drank his milk."

**Ranching Days Recalled**  
The memory of ranching days in Alberta is preserved by the place names, Stavely, De Winton, Cochran, and Stimson.

**Minard's Liniment for the Grippe and Flu.**

# ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

## Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitation, the Tablets will be stamped with their "Bayer Cross" trademark.

### Farm Machinery Purchased

Farmers of Southern Alberta Made Heavy Investments Last Year

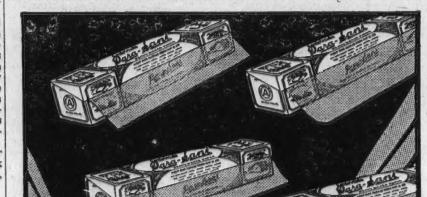

According to an estimate appearing in "The Lethbridge Herald," some \$7,250,000 was spent in Southern Alberta during 1928 for new autos, trucks, tractors, combines and other such farm machinery. The classification is as follows: Automobiles and trucks, \$2,500,000; Combines, \$1,000,000; tractors, \$1,250,000, and other machinery, \$2,500,000. At harvest time a survey showed there were 551 combines and 2,250 trucks in operation on the Lethbridge railway division.

"Dad, what is influenza?"

"Influence, my boy, is what you think you have till you try to use it."

Parting a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

A woman graduate of Glasgow University has become Scotland's first woman minister.

## Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

## Preparing New Calendar For Each Year Requires Six Years Of Co-Operative Effort

A letter pointing out the unnecessary inconvenience caused by the position of Christmas and New Year's day in the calendar of 1926, and giving an illuminating sketch of the intricate systems of calendar making that are undertaken each year, has been received by the editor of "Interdependence" the monthly review of the League of Nations Society in Canada, which has its headquarters at Ottawa, from Moses B. Cotsworth, well known calendar expert and director of the International Fixed Calendar League.

Mr. Cotsworth is the exponent of a fixed calendar of thirteen months of twenty-eight days each to replace the irregular Gregorian calendar now in use and points out that because Christmas fell upon a Tuesday in 1925 much inconvenience was caused to employers and employed as the majority had to return to work following the weekend, on Monday, thus interrupting the holiday and making it impossible for people to visit their friends or relatives at distant points. Under the International Fixed Calendar which is suggested as an efficient alternative to that now in vogue, Mr. Cotsworth points out that Christmas would always fall upon a Monday, as would all other holidays throughout the year, creating a long weekend holiday to the benefit of the world at large.

Dealing with the complexity of the work of preparing a new calendar for each year, Mr. Cotsworth continues: "The fact that the basis for making each year's calendar requires six years of co-operative work by the best astronomers in five leading nations, should be known to all who yearly buy or receive calendars. For example, the first calculations for the year 1933 were begun on August 17th, 1927 by eminent scientists in the Greenwich Observatory and the Nautical Almanac Office. They work out for all nations the Right Ascension and Declination of the Sun, Moon and 84 of the Fixed Stars at each of the 24 hours, for every one of the year's 365 days.

By August, 1928, there were printed and sent to the directors of the National Observatories in the United States, Germany, France and Spain, to enable each to begin his quota of the great work they mutually shared out, so that no part is duplicated. The United States astronomers were chosen for all Nations, the Eclipses for the Sun and Moon, and the hourly positions of the planets with their satellites, etc. Germany calculates the hourly positions for 367 of the Fixed Stars below the Celestial Arctic Circle to the Tropic of Cancer. France works out the hourly positions for the Polar Stars within the Arctic Circle, etc. Spain does like work for 85 of the more Southerly Stars, etc.

About one and a half years later these four National Directors having printed their results will send copies to each other and to the Greenwich authorities, who will combine them in the "Nautical Almanac" for 1933 which they will print and issue about the end of 1930. The complete Nautical Almanac will then be sent to the directors of Geodetic Offices in all Nations, to enable each of

them to work out from its data, the tide tables showing the daily times and heights of tides for each of all country ports ready for issue to the makers of calendars not later than January 1933, so that calendars for 1933 may be printed ready for distribution during the last months of 1932.

### In Epidemic In East

#### Forty Per Cent. Of Population Of Ontario Have Been Affected

Forty per cent. of the population of Ontario were stricken with influenza during the recent epidemic, according to figures issued at the provincial department of health, Toronto, today.

Many districts in the province had 100 per cent. of their population stricken, it was stated, while 50 per cent. of the population of Toronto had suffered from the disease.

"The number of cases is diminishing daily, but the death rate for the number of reported cases is still increasing," Dr. S. J. Bell, deputy minister of health, stated.

### Winnipeg Newspaper Union

Delightful Sports Mode

It simulates the two-piece mode with a girdle. It is made of a ribbed, open closing bodice and smartly plaited skirt. The youthful neckline with shawl collar and sleeve bands add a tailored finish. Style No. 982 designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Materials can be made of sheer tweed, patterned wool jersey, crepe satin, canton-crepe, flat silk crepe, crepe Elizabeth, printed and plain crepe, and rayon crepe. A few seams to join and it's finished and made at a substantial saving. The 36-inch size requires  $\frac{1}{2}$  yards of 40-inch material with a yard of 40-inch trimmings. Price 20 cents in stamp or coin (coin preferred). Wrap coin carefully.

### SALVATION ARMY TROUBLE

General Bramwell Booth, supreme commander of the Salvation Army, has been asked by the high council of the Army to retire from active leadership because of ill health.

### Alberta As A Grain Country

#### Province Growing Grain Equal To Any On The Continent

W. J. Stephen, Alberta Field Crop Commissioner, who attended the Chicago International Livestock and Grain Show, where he was in charge of the provincial exhibits, states that a very favorable impression was made by the exhibits from this province, which upheld and enhanced its reputation as a grain country. He points out that Alberta won more premium money at Chicago than any State in the Union; and more than all the other provinces in Canada combined. Of the 58 entries 32 secured prizes and the consensus of opinion by those attending the show was that Alberta is growing grain equal to any on the continent.

### A Successful Immigrant

#### Man From Sweden Does Well With Farming Operations In Saskatchewa

Another instance of a successful immigrant launching out on an ambitious scale of farming is that of Andrew Anderson of Alsask, Sask., who came from Sweden in 1916; he began farming on a homestead of 160 acres and now farms 4,500 acres which, in 1928, yielded \$4,000 bushels of Marquis wheat. But the farm is something of a show place as well containing, among other things, an arboretum and an artificial lake.

Friend—I got a touch of neuralgia. Deadbeat—I wonder if he'd lend me anything!

About three-fourths of the world's silk is used in the United States.

## The Dominion Fuel Board Issues Progress Report Dealing With Present Fuel Situation

The Dominion Fuel Board has issued a progress report covering the activities of the Board and the changes that the fuel situation in Canada has undergone since publication of the Board's interim report in 1928. The present market conditions of five years ago, when the main fuel problem was one of supply, with those of today, and states that there is now an abundance of both native and foreign fuels for all purposes and that the major problem now is one of markets for Canadian coals.

At the time of the Board's inception a question of primary importance was to replace foreign anhydrite in Central Canada by suitable alternative fuels. There had also arisen a strong national desire for a maximum of Canadian fuel independence instead of reliance on the United States for 50 per cent of the coal used. A number of broad investigations have contributed materially to the solution of the problem of an adequate supply of fuel and in part, at least, to the solution of the other problems of national independence. Ontario and Quebec, though still using large quantities of American anhydrite, are no longer entirely dependent on this fuel, the producers of which are righting themselves in their new relations as a declining market. Coke, British anhydrite, low volatile coals and fuel oil are strong competitors with American anhydrite in the household fuel trade, and the range of Alberta and Maritime coals is being extended through special provisions. The fact is emphasized, however, that the problem of Canada's complete fuel independence is still unsolved. The geographic handicap consequent on the location of our largest markets far from our great producing fields, but in close proximity to those of the United States, is one difficult to overcome.

The Board points out that it cannot assume as its function the formulation of a national fuel policy, for this is a prerogative of Government, and any such policy, so far as it concerns complete fuel independence, must be determined largely by questions of national expediency based however upon the most complete and accurate knowledge of all technical and economic facts obtainable. The Board is endeavouring to secure and correlate these facts. The most important point still to be ascertained is the cost of transporting coal to Ontario and Quebec from Alberta and the Maritime Provinces.

### NEW FICTORIAL STAMP ISSUE

Seven new stamps were issued by the post-office department and are on sale to collectors and others desiring special sets. These stamps are issued by the department to replace the old issue which is at present in use. Of the new issue the highest value is the one dollar, which is olive-green in color and depicts Canada's legislative building at Ottawa. The twelve-cent pink in color and depicts a harvesting scene. Next in order is the 12-cent grey, on which is shown Quebec bridge. The next three sets issued, the eight, five and one-cent postage stamps, show a portrait of King George V and are dark blue, purple and red respectively. The issue has been acclaimed by collectors and others as the most beautiful set ever issued by this country and one of the best issues, as far as collections of colorful stamps are concerned, in the world. Each has a large amount of scroll work around the pictures.

and the determination of this by actual test has been assigned by the Government to the Board of Railways Commissioners.

The report summarizes the results of widespread investigation in fuel utilization conducted by the Board through its members and in some cases with the assistance of eminent outside engineers. It is shown that technical research is opening up many possibilities for more efficient and diversified uses of coal. In the matter of low temperature carbonization of bituminous coals, the report points out the difficulty of applying in Canada methods now in operation in countries like Great Britain, France and Germany where the density of population provides a near and ready market for the products. The Board, however, is keeping in close touch with the development of the different processes so that advantages may be taken of them should they prove applicable to conditions in Canada.

The report closes with the statement that the necessity for the study of fuels and fuel problems will probably continue as long as coal is mineralized. A new fuel research laboratory now being completed for the Department of Mines is exceptionally well equipped, and through association with the Department the Fuel Board will avail itself of these improved facilities.

### Experiments Interesting

#### Materials Tested Under Pressure

*Leave Their Familiar Properties.* Tremendous pressure has reversed almost completely the familiar properties of some well known substances in experiments at Harvard University.

Paraffin, under pressures ranging between 200,000 to 600,000 pounds a square inch, became so hard that Prof. Percy W. Bridgman pronounced it harder than machine steel. Rubber became so hard that it was pronounced usable as a die to form steel.

Dr. Bridgman found that steel tended to flow, if not like water, at least sufficiently to spread.

Oil became useless as a lubricant, because it turned solid. Mercury, after a pressure of 60,000 pounds became so brittle, the theory being that its atoms were forced closer to those composing the steel chamber in which it was imprisoned.

One of the objectives of the experiments is to test materials used in manufacture of big guns. Another is to study the molecular and atomic changes in various substances.

### Sodium Sulphate Deposits

The investigation of the natural sodium sulphate deposits in Western Canada by the Department of Mines has proved tonnage of hydronium sodium and magnesium sulphate in excess of 100,000,000 tons. There are many other deposits in the Prairie Provinces, which could produce sodium sulphate, but while the markets are limited and the price low, only those close to railways can be considered as producers at present.

"My razor doesn't cut at all." "Why Henry, your beard is tougher than the kitchen linoleum."

He—"A penny for your thoughts." She—"What do you think I am—a slot machine?"

"I am so unhappy. My husband suffers from kleptomania."

"I'm sorry. Does he suffer much pain?"—Viking, Oslo.

### WORLD HAPPENINGS BRIEFLY TOLD

The Turkish assembly ratified the pact for renunciation of war and the government instructed its ambassador at Washington to sign the pact.

The Rev. Dr. S. Parkes Cadman, pastor of Central Congregational church, Brooklyn, says he has been invited to deliver the sermon at the opening of the League of Nations conference at Geneva on Aug. 25.

Premier Stanley Baldwin announced in the House of Commons examination will be held into the 60-year-old project for a tunnel under that a comprehensive non-party return the English Channel.

Several persons were killed and a thousand buildings destroyed in the populous Greek district of Tavala in Constantinople by a terrific fire whipped by a fierce wind which laid waste an extensive area.

Japan has notified the League of Nations that manufacture and distribution of narcotics in Korea had been taken out of the hands of private companies and made a government monopoly.

Every effort will be made to secure for Canada the winter sports of the Olympic games in 1932, it was decided at a meeting in Toronto of the executive committee of the Canadian Olympic committee.

### "Flu" Is Here In Dead Earnest

SICKNESS IN NEARLY EVERY HOME IN WESTERN CANADA

Watch your little cold—because everyone who is coughing or sneezing—avoid crowded places, above all stop your grippy cold at the beginning.

Doctors and nurses who have had long experience in handling gripe cases advocate Catarrhuzone Vapor as an effective means of protection. It is very simple to use Catarrhuzone, and with family can enjoy its germ-killing protection at the cost of a few cents.

Put a teaspoonful of liquid Catarrhuzone plus a few drops of oil on the stove or lamp and bring the water to a boil. The vapor which rises contains the most powerful disinfectants. You, breathe this equally good for the parents. Far better to protect the whole family in this way than to have a household of sickness. All druggists sell Catarrhuzone in 50c. bottles.

#### Telephone System

As showing the growth of business in Edmonton, "The Journal" points out that whereas 24 years ago some 650 citizens of the then town of Edmonton voted \$27,000 for the purchase of the Edmonton district telephone system (for the use of 289 subscribers), the system has now grown to represent a capital investment of \$2,500,000, with subscribers numbering 15,000.

#### Experimental Farm System

Canada Has Largest System Of Its Kind In The World

The Canadian Governmental Experimental Farm system now embraces 27 farms, seven sub-stations, one horse-breeding station, one for ranch, 10 plant pathological laboratories, and 201 illustration stations at different points in the nine provinces of the Dominion. The system is the largest of its kind in the world.

#### CHILDHOOD AILMENTS

Can be Quickly Banished With Baby's Own Tablets

The common cold, which may last nine-tenths of them are due to one cause and one cause only—a disorder condition of the stomach and bowels. To quickly banish the common cold, the babybowls must be made to work regular and the stomach must be sweetened. Some simple medicine for little ones has had such success as Baby's Own Tablets. They banish constipation and indigestion, break colds and colic and promote healthful sleep by regulating the functions of the stomach and bowels. Concerning them: Mrs. L. M. Watson, of Watson's Medicine Co., Brockville, Ont.

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Wills' Medicines Co., Brockville, Ont.

**Winnipeg Newspaper Union**

#### Baby's New Ensemble

Give the darling new babe a right start to good health and happiness by choosing the correct garment for him, and he will repay you with his smiles and coos. Style No. 221 consists of a dress with a bishop sleeve, a wide belt with bows, gathered ruffles, puffed shoulders, and a lace-trimmed hem.

Style No. 222 is a short-sleeved dress with a sailor collar, a lace-trimmed hem, and a lace-trimmed belt.

Style No. 223 is a short-sleeved dress with a sailor collar, a lace-trimmed hem, and a lace-trimmed belt.

Style No. 224 is a short-sleeved dress with a sailor collar, a lace-trimmed hem, and a lace-trimmed belt.

Style No. 225 is a short-sleeved dress with a sailor collar, a lace-trimmed hem, and a lace-trimmed belt.

Style No. 226 is a short-sleeved dress with a sailor collar, a lace-trimmed hem, and a lace-trimmed belt.

## EMBARGO BRINGS PROTEST FROM RAILWAY HEADS

Montreal.—The partial embargo placed against central European colonists by the Dominion department of immigration and colonization drew from the Canadian Pacific and Canadian National railways to-day formal protests.

The decision, it was claimed in a statement issued by the presidents of the companies, will not only work distinct hardship on both transportation systems but will destroy the faith of the governments, whose people are affected, have in Canada.

The companies deny they are interested in moving colonists from non-preferred countries in Europe rather than those from Great Britain or other northern European or preferred countries.

The attitude of the transportation companies was outlined in a statement issued to The Canadian Press by the railway presidents, E. W. Beatty and Sir Henry Thornton.

### Will Urge Negotiation Of Trade Agreement

**Chinese Nationalist League Would Develop Business With Canada**

Vancouver.—Development of trade between China and Canada through the negotiation of a treaty between their government and that of Canada is a major recommendation to be voiced at the annual convention of Kuomintang, Chinese national government at Nanking, by the seven delegates from Canada. Seventy-five representatives of all branches of the Chinese National League in Canada are now holding their annual conclave at Canadian headquarters, Gore avenue and Pioneer street, and will elect their representatives before the sessions end Jan. 31.

An increase in the number of consuls throughout the Dominion will also be sought by the delegates from Canadian Consulates and at present maintained only at Ottawa and Victoria.

There are 75 branches of the league in Canada, with three divisions, governing the east, middlewest and west. There is a Canadian membership of more than 10,000.

### New Railway Station

**C. N. R. Station At The Pas Is Officially Opened**

The Pas.—Another chapter in the development of northern Manitoba was written today when the Canadian National Railways' new \$75,000 station was officially opened here.

A ceremony was held at the new station, which is situated in the heart of the town. Maj. J. G. MacLachlan, district engineer of the C. N. R., turned the station key over to V. I. Smart, general superintendent of transportation, who opened the door of the station to the public.

#### New Senator Appointed

Ottawa.—Hance J. Logan, former Liberal member for Cumberland, N. S., in the House of Commons, has been appointed to the Senate, filling the vacancy in that body caused by the death of Senator W. B. Ross. Announcement of the appointment was made at the prime minister's office.

#### Canada's Record Wheat Yield

Ottawa.—Canada's yield of wheat for the year 1928 amounted to 535,571,700 bushels. This is the highest on record and the first time that Canada has harvested a crop of over half a billion bushels. This announcement was made in the crop report just issued by the Dominion bureau of statistics.

#### Director of Cattle Association

Branford, Ont.—R. B. Falt, for 25 years editor of the Farm Journal, has been appointed director of extension of the Holstein Friesian association of Canada. His headquarters will be in Branford.

W. N. U. 1770

### Class B Fairs

#### New Dates Are Set At Meeting Held In Winnipeg

Winnipeg.—The establishment of an eastern and a western circuit of B class fairs, and the setting of dates for fairs in each circuit, was the principal result of a session of the Western Canada Association of Exhibitions, which comprises the class A fairs concluded their convention in the afternoon.

Archie Wilson of Saskatoon, heads the Western Canada Association of Exhibitions for the coming year, being elected president to succeed H. W. Abbott of Edmonton at the closing session. H. G. Smith, Regina, was re-elected vice president of the organization and S. W. Jones, Saskatoon, will continue in office as secretary-treasurer.

Johnny J. Jones was awarded the contract for midway shows at class A fairs.

Because the circuit of the Western Canada Fairs Association had become so unwieldy by reason of the large number of fairs, it was divided into two circuits, and the dates for fairs set as follows:

Eastern circuit—Carman, June 28 to July 1; Estevan, July 3 to 6; Portage la Prairie, July 8 to 10; Dauphin, July 11 to 13; Prince Albert, July 15 to 17; Melfort, July 18 to 20; Yorkton, July 22 to 27.

Western circuit—Weyburn, July 8 to 10; Assiniboia, July 11 to 13; Lethbridge, July 15 to 20; Red Deer, July 22 to 24; Camrose, July 25 to 27, Vegreville, July 29 to 31; Vermillion, Aug. 1 to 3; Lloydminster, Aug. 5 to 7; North Battleford, Aug. 8 to 10.

### Prizes For Research

#### Two Will Be Given for Best Work in Cancer Investigation

London.—The grand council of the British Empire cancer campaign announced approval of an offer of two prizes of \$2,500 each, in 1931 and 1933, for the best original piece of work in the investigation of cancer carried out in the British Empire. They will be known as the Garton prizes.

The report of the Medical Research Council, summarizing the work of various research centers in 1927, claims malignant growths in the early stages of cancer can be removed by the radium treatment as efficaciously as by any surgical means.

#### King's Condition Improves

London.—Continued improvement in the health of the King today led the court officials to begin planning the regular levees and other functions of the season. The first levee, at which the Prince of Wales will preside, will be held at St. James palace on Feb. 26. The King's physicians have made it known that he must spend no more winters in England, and that he must seek a warmer climate for several months each year.

#### Believe Soviet Rule Over

Montreal.—The Soviet experiment in Russia had failed tragically and its endurance was now but a question of the patience of the Russian people, according to his imperial highness the Grand Duke Alexander Michailovitch, brother-in-law of the late czar, cousin by marriage to King George, who has arrived here. The grand duke was certain that his countrymen would not suffer the yoke of the communists very much longer.

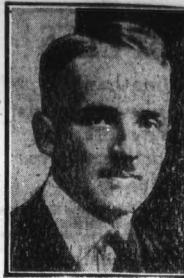

#### Tour Europe

Ottawa.—Arrangements have been concluded here for the European tour of a large party of Canadian club members. The group, whom it is expected will draw members from every part of the Dominion, is to sail from Montreal aboard the liner Laurentian June 8.

#### Is Acting Postmaster

Ottawa.—William H. Pennoch, for several years "assistant postmaster at Ottawa, has been named acting postmaster. The vacancy was created by the death recently of Andrew G. Acres.

### RECEIVES IMPORTANT POST

Dr. Charles R. Best, collaborator with Dr. F. G. Banting in the discovery of insulin, has been appointed to the chair of physiology of the University of Toronto. He succeeds Prof. J. J. R. MacLeod, who left Toronto to return to the University of Aberdeen.

### Exhibition May

#### Be Re-Established

#### Winnipeg Ratepayers Will Vote On Question in March

Winnipeg.—An exhibition which the promoters hope will take a prominent place among the exhibitions of the Dominion is being planned at Winnipeg, according to Wesley McCurdy, director, speaking to western exhibition authorities meeting here yesterday.

Winnipeg ratepayers will vote March 15 upon the question of whether or not they wish to authorize expenditure of \$850,000 for the re-establishment of the city's exhibition.

Will Take King To Sussex

London.—Preparations are going forward for the removal of King George to Bognor in Sussex as soon as his doctors decide that the time is opportune. The King will travel the 65 miles to the coast resort in a large car fitted so that he can be as comfortably as in his bed at Buckingham palace.

#### Wrote For "Punch"

London.—English humorist Cedric Legome, dead at Bognor, died after a long illness. He was famous as an pantomime and rowing coach and also for the light, witty verses which he contributed to "Punch."

#### Treating Drug Addicts

Geneva.—Noboru Sato, the Japanese League of Nations representative, has informed the international organization that Japan was successfully applying medical treatment to Korean morphine addicts. Out of 684 cases, 650 had been sent to hospitals and cured.

### BACK FROM THE BARRENS

Although he had not been out of the Barren lands for fifteen years, George Yandle, trapper, maintained a fine sense of civilization. The first thing he did when he got to The Pas—he did not even wait until he reached Winnipeg—was buy himself a pair of spats with zippers. Yandle acted as interpreter when Count Illa Tolstoy entertained the Eskimos in the far north. The photograph, which was taken outside the Canadian National Railways station in Winnipeg, just after the trio's ar-

### Needs Britain's Protection

#### Iraq Is Not Sufficiently Prepared to Defend Itself

London.—Differences between the British and Iraq governments over the ability or otherwise of Iraq to defend itself have resulted in the resignation of the Iraq cabinet under Premier Aska Jafar Pasha of Askari.

The British authorities hold the view that Iraq, placed under martial law since the war, is not yet ready to assume full responsibility for its defense.

A treaty between the British and Iraq governments in 1923 provides the responsibilities of Great Britain as a mandatory power shall be terminated when Iraq is admitted to the League of Nations.

Iraq has a population of nearly 3,000,000, practically all Mohammedans. Its chief city is Bagdad, and the territory is east of Arabia, comprising 150,000 square miles.

The real difficulty it is pointed out in London is that even the most amicable agreements between Great Britain and Iraq are not fulfilled particularly with regard to military and financial matters, including railways and forts.

### Crosses Atlantic In Steamer's Lifeboat

#### Stowaway From England Had Feed Frosted-Blitten During Voyage

New York.—Matthew Baddeley, youthful cheese cart driver of Cheshire county, England, completed a stormy crossing of the Atlantic in a lifeboat, an uncomfortable but not a dangerous journey, for the lifeboat all the time was hanging in its davits on the liner Lancastria. For days the stowaway stuck it out through storms and cold, living on the emergency rations in his hiding place. He kept his hands warm against his body, but his feet were frost-bitten and just before the ship reached quarantine the pain drove him forth.

He collapsed while telling his story but was revived and put to bed in the ship's hospital. He will be sent back to his cheese cart.

#### Treats Drug Addicts

Geneva.—Noboru Sato, the Japanese League of Nations representative, has informed the international organization that Japan was successfully applying medical treatment to Korean morphine addicts. Out of 684 cases, 650 had been sent to hospitals and cured.

### URGES BETTER FEELING BETWEEN TWO NATIONS

New York.—J. Ramsay MacDonald, former premier of Great Britain, in an article under his name in the current issue of The Nation, Liberal weekly, makes a plea for the understanding of public men of the two nations "to meet and drag from the obscure corners of sulky suspicion the things that make difficulties between us."

The relations between the United States and Great Britain, grow increasingly unhappy," he says. "A spirit is growing in the two countries which is estranging them and encouraging a kind of squabbling criticism which destroys mutual understanding and forebearance."

"Have both of us failed to observe how easily it is to slip into war for nothing, how ready popular imagination is to seize on fire by anyone even an almost anonymous newspaper proprietor—who cares to light a match?" he asks, then continues:

"This is no case for private and unofficial action and conferences. The governments must act. Both countries ought to appoint five or six outstanding men to discuss our differences. Mayhap fresh air would clean our minds of them."

### South African Tourists Greeted By Snowstorm

#### Students Wanted Thrill and Got It In Toronto

Toronto.—In the midst of a blinding snowstorm 37 students of South African universities arrived here in the course of their tour of United States and Canada.

"Just what we wanted," one of them exclaimed heartily, though citizens of Toronto were finding the严寒 quite disagreeable.

"We were counting on Canada for the thrill of real cold weather, lots of snow and the novelty of ice hockey," T. Thorpe, Capetown university spokesman for the visitors said.

The students were the guests of Toronto university and left for Montreal for a visit to McGill University. Before completion of the tour the students will have been away from home for three months and will have travelled 25,000 miles.

### Ratifies Kellogg Treaty

#### Action of Lithuania May Affect Dispute Between Russia and Poland Kovno, Lithuania.—The Lithuanian government ratified the anti-war Kellogg pact.

Ratification of the Kellogg pact by Lithuania has significance in its bearing upon negotiations between Russia and Poland for a special protocol applying the pact in a localized sense to the states that touch the western frontier of Russia. Poland and Lithuania have been at odds over frontier questions and over the ownership of Vilna, a city which Lithuania claims as its legitimate capital but which is now held by Poland.

#### Decline in Dairy Production

Winnipeg.—High spring feed prices and tempting offers by American buyers for dairy cows caused a falling off in total dairy production for 1928 in Manitoba, according to Alex. McKay, president of the butter manufacturer's section of the Manitoba Dairy Association. The year, on the whole, was successful, the president intimated in his address.

#### Wireless For Planes

Toronto.—Provincial air force planes will be equipped this year with wireless, so they may send reports to headquarters from any distance up to 400 miles it has been announced.

#### Report Severed Relations

Berlin.—An entirely unconfirmed report circulated in Berlin said Japan had severed diplomatic relations with Russia. The source of the report was not known.

#### Here and There

(219)  
Boys at Red Deer, Alberta, earned  
Christmas pocket money by  
trapping. They brought in nearly  
one hundred skins in less than a fort-  
night, and the products, rabbit,  
squirrel and cat skins.

Further experiments with super-  
phosphate from the smelter at  
Trail, B.C., will be conducted in  
January by the Alberta Department of  
Agriculture in connection with the  
Dominion Experimental Farms and the  
C. P. R. experimental farms. An  
abundant quantity of this fertilizer  
will be available to meet demands.

Upwards of four millions of dol-  
lars will be expended this season for  
effecting alterations, improvements  
and new extensions to the Palliser  
Hotel at Calgary, Alberta, and the  
Empress Hotel at Victoria, British  
Columbia. E. W. Beatty, chair-  
man of the Canadian Pacific and the  
Canadian Pacific Railway has just announced  
that four additional floors will be  
added to the former and an entirely  
new wing will be extended from the  
latter, bringing the two famous hotelies even more up to  
date.

A Negro preacher walked into the  
office of a Southern newspaper and said: "Mister Edit", they is  
two Negroes here to see you. I am  
which entitle me to go to church  
in which notice to go to?" "Sit down and write," said the editor.

"I think you are right," he is the  
notice the minister wrote: "Mount  
Memorial Baptist Church, the Rev.  
John Walker, pastor. Preaching  
services every evening. In pre-  
munication of the gospel, three books  
are necessary: The Bible, the  
hymn book and the pocketbook.  
Come to-morrow and bring all  
three."

Twenty head of mountain cattle  
from Alberta were bred hard to live  
arrived at Vancouver over Cana-  
dian Pacific Railway lines for ship-  
ment to Japan. These cattle were col-  
lected for a Japanese company  
utilization of agriculture. Quite  
a few such shipments have  
passed through this port recently.  
The purchase of 10,000 head for Japan  
was made through the Alberta govern-  
ment and the cattle were selected  
from various herds in the prov-  
ince. Several of the animals  
have immediate buyers and the re-  
cords of 20,000 pounds of milk per  
year and all of them are from high  
producing dams.

A monster black bear weighing  
over 400 pounds that stalked up-  
right through the woods seeking  
water was killed near Fort McMurray  
which had no firearms, has just been  
trapped in New Brunswick,  
according to Dave Ogilvy, well-  
known guide and trapper. The  
bear used to rifle all the garbage  
dumps and refuse heaps in the  
neighbourhood of Plaster Rock, on  
the line of the C. P. R., and was  
caught by means of a trap hidden  
under dead leaves and some old  
paint tins. Examination of the  
body showed that its front paws  
were small and deformed at  
birth or by accident, and that  
it must have walked about on its  
hind feet. It was finally trapped in the rear  
paws and soon died. The con-  
fusing mystery existed as to the  
maurader. Seymour Trafton and  
Jock Ogilvy caught the bear, whose  
skin measured over seven feet in  
length.

CHAPTER XIII.—Continued.

Connie raised her head. "Oh, no I don't think so, Andy; that must slip on," she objected.

Andy made a pretence of studying the article in question.

"Yes, yes, sure! That's right!

that's right!" he conceded quickly.

Andy's pipe was now sending out billows of acrid smoke. Connie moved beyond the smoke screen. Much to Andy's relief, she sat for a moment silently studying the advertisement. When she raised her head there was a look of wistful yearning in her blue eyes.

"Oh, Andy," she said dreamily, "it must be lovely to feel those soft silky things next your skin."

"I'm—I'm sorry, Connie," stuttered Andy, "but I've a roast in the oven—I—"

"Just a minute, Andy," she pleaded, "there is something else I want to ask you." She sorted the papers for a moment.

"God 'elp me, what will it be now?" thought Andy, as he braced himself for the next question.

"Andy, what is a canisole?"

A look of profound relief crossed the little Australian's face.

"A canisole," he explained with an air of wisdom, "is a fish. It's a—"

He was interrupted by Connie's peal of laughter. "Oh, Andy," she cried, "you're a funny man!" She turned and ran laughing down the hill.

"Strike me lucky!" exclaimed Andy as he stopped his brow. "It's enough to make a blighter's 'eart bleed. The poor motherless kid comin' to a bloke like me to ask such questions."

He watched Connie as she slowly ascended the trail, still studying the magazine pages.

"But 'ow the 'ell can I 'elp er?"

He pondered deeply for a moment, but, seemingly unable to answer the question, shook his head sadly and turned to his duties.

Fortunately for Janet's peace of mind, none of her friends had recognized in the photograph of the new champion of Canada the handsome young man they had met at her home. They were puzzled by her decision to spend a holiday in the wilds until she casually mentioned that Mr. McLean was arranging for their entertainment, and she ac-

**CUTICURA HEALS  
LARGE PIMPLES**

Caused Itching Burning,  
Also Disfigurement.

"My complexion was completely marred by pimples which varied in size. Some were large, hard and tender, others small, soft and easily festered. They caused an itching, burning sensation, also disfigurement."

"After using scores of remedies for over two years, with but little results, I sent for a free sample of Cuticura Soap and Ointment. I was pleased with the results and purchased more, and after using two cakes of Cuticura Soap and one large box of Cuticura Ointment I am now 'all healed'!" (Signed) W. E. Blackburn, 20 Belmont Ave., Toronto, Ont.

cepted with a smile the sly greeting that followed.

The party arrived by special train a day earlier than originally planned, and as Janet stepped to the platform Donald was for a momentconcerted by the warmth of her greeting and the softness in her eyes as they rested on him.

That afternoon Connie came riding down the hill holding in her hand an enormous bouquet of Alpine flowers. She leaped from her horse and ran blithely around the corner of the big building. Andy, dressed in white coat and hat, came smilingly forward to meet her.

"Andy, here are some rare flowers Dad sent for—" She ceased speaking abruptly as Donald, leading Janet and her friends from a tour of the kitchen, came through the door.

Donald's face lighted with a glad smile as he saw Connie.

"Miss Connie, I want you to meet Miss Wainwright."

Connie's face burned with embarrassment as all eyes turned toward her, and the mass of wild flowers held crushed to her breast quivered as though shaken by a breeze. She glanced about her quickly, strongly tempted to flee the spot.

For a moment the society girl and the girl of the mountains eyed each other silently. Janet stared at Connie as if she were some strange creature unclassified by science.

Connie for the first time was gazing on a stylishly-clad member of her own sex. Janet's dress of white silk shimmered in the sunshine, and her broad-brimmed white hat, with lining of pale rose, gave her a beautiful face a ruddy glow.

Connie's eyes roved in admiring awe from the neat high-heeled shoes to the silken hose and skirt, and then to the flowered hat set jauntily on thick shining coils of dark hair.

There was a certain dewy freshness, a "native frankness, about the girl of the woods that made Jane appear artificial. Their eyes met, and Connie's lips parted in a timid smile revealing two rows of perfect milk-white teeth and forming two tiny dimples in her brown cheeks. Her lonely heart leaped to the friendship of this wonderful girl, but the smile quickly faded when she saw that Janet's eyes remained cold and appraising.

Janet scrutinized Connie's faded blue overalls and coarse cotton shirt, which, even though loose and ill-fitting, could not conceal the graceful lines of the childlike figure. Confused by the cold reception, her eyes wide and misty with a hint of pain, Connie turned quickly away.

Moving with the easy grace and freedom that an empress might envy, Connie walked to the side of her carriage, and with characteristic bird-like motion sprang to his back. Her mocassined feet struck his sides, and with ears flattened Pegasus leaped forward with a speed that sent Connie's hair streaming. His spurning hoofs sent a cloud of dust in their faces, then horses and rider went tearing down the hill.

Janet stood staring after the flying rider, a look of blank astonishment on her face.

Connie's visits to the mill ceased, but from the highest point on the bluff she watched the merry-makers with keen interest, as dressed in native riding costumes, they rode their horses, dispersed themselves in bathing-suits on the sandy beach, paddled the lake in light, graceful canoes, or clogged about in the many white sail-boats. For the evening she sat at a feeling of dreary loneliness while Donald and Janet floated on the placid lake in one of the tiny canoes, their subdued voices and gentle laughter coming up faintly from below.

During the evenings she spent with Donald, Janet was assailed by fleeting emotions in which she tried to define her attitude toward him. She felt that the time was not far distant when some definition would be necessary. In a number of artful ways she had tried, but without success, to lead him to talk of himself. When she put a direct question she saw the lines about his mouth tighten, and his reply carried a tone of such unmistakable rebuke that her face reddened and the subject was instantly dropped.

On the night before Janet's departure a dance was arranged, to which the clerical staff of the Cheakamus Mill was invited. Gillis promised a special feature on the programme in the form of an old-fashioned square-

dance with his "red-shirts" as the performers.

All that day the skies drizzled continuously; lake and mountains were hidden under a heavy mist. The inclement weather did not deter the audience, the merry crowd, who, in slickers and oilskins of every description, gathered flowers and trees to decorate the dining room that was to be used as a dance-hall.

That night, lights gleamed from every window of the big room, which had undergone a sudden transformation. The walls were one mass of wild flowers, and on the beams hung giant wild cedar and jackpines stood upright in rows, adding a pungent odour to the air, already burdened with the sweet smell of wild flowers. The music of the phonograph flowed out of the open door to vibrate softly through the dripping trees.

Connie learned of the dance, and after dark she slipped quietly down into the valley. She crouched by the open window, heedless of the rain dripping from the eaves, her eyes glued upon the enchanting scene within. She saw Donald and Janet gliding across the floor, and she marvelled at the grace of their movements. The music of the talk, the instant ripple of feminine laughter, the rustle of silken skirts, were all foreign to Connie. She felt a touch of intense and utter loneliness, like a stranger in a strange land.

Janet seemed to have thrown aside her cloak of reserve; she brimmed over with an unwonted gaiety, but at times her big brown eyes held a troubled look as they rested on Donald.

Gillis' "redshirts" filed in to give an exhibition of old-fashioned dancing. Half the men wore handkerchiefs tied about their arms to indicate that they were impersonating ladies. Blackie played the violin, while "Fightig" Jack's rough voice did the "callin' off." Gillis informed the company that Blackie "didn't know a note of music from a post-hole." But what he lacked in technical knowledge was made up in the immense volume of sound he

produced from the instrument, and the speed he set for the whirling dancers to follow soon had them dripping with perspiration. There were shouts of Homeric laughter, big feet thumped the floor as they gyrated through the intricate steps of the quadrille, and above all sounded the hoarse voice of "Fightig" Jack in the colorful jar-gon of "fightin'" Jack or "callin' off."

Birdie jump out and Jackie jump in;

Jackie jump out and give Birdie a swing.

All the men left; back to partner;

And grand right and left.

Chickadee right and pack-rat left.

Meet your partners and all chaw bay.

Gents sashay and put on style,

Re-sashay and with a little more style,

Little more style, gents, little more style."

At the finish the girls loudly applauded the efforts of this picturesque crew, and after a short breathing spell they again took the floor and danced until sheer exhaustion forced them to quit. Mopping their dripping faces with big red bandanas, they trooped boisterously outside.

Near midnight the rain ceased, and as Donald walked with Janet to her cabin the moon came suddenly from behind a dark wall of clouds to set the lake sparkling under its soft light.

"Too wonderful a night to sleep," said Janet softly.

"Shall we walk to the lake?" asked Donald.

"I don't want to."

They stood near the edge of the lake in the light of the moon and looked across at the towering snow-covered peaks set against star-spangled sky. There were lights still shining from the big room they had just vacated, and the night watchman's lantern bobbed jerkily as he made his rounds. Across the trapper's cabin shone on the calm surface of the water. The faint, weird call of a loon wafted to their ears was echoed and re-echoed in soft cadences from the surrounding hills. A faint breath of wind came out of the rain-washed forest laden with the sweet perfume of earth and flowers, and caressed their faces like loving fingers. Donald had a deep breath that seemed more like a sigh.

(To Be Continued.)

**Minard's Liniment prevents Flu.**

About the only thing a man gets free in this world is criticism.

Zam-Buk provides an ever-ready and reliable first-aid for injuries. It is also unequalled as a soothing, speedy remedy for obstinate and deean-seized skin disease, poisoned wounds, ulcers, piles, etc.

Within every box of Zam-Buk are stored the most valuable healing, antiseptic and antibiotic properties known to Science. It is unique in its composition and its absolute freedom from animal fat and mineral drugs make it the best and the best dressing for skin troubles of all kinds.

Get a box of this great herbal healer from your druggist or dealer and send us a sample to test.

**Nothing Like Zam-Buk FOR THE SKIN**

**Little Helps For This Week**

Now are we sure that Thou knowest all things.—John xvi. 30.

Only God knows the trials that we bear.

The weary longing for a different care.

The daily struggle and the anxious care.

He knows, and we can wait.

Only God knows—we have no want beside!

Our Father watches o'er us from

We feel our weakness, but His hand will guide.

He knows, and He is Love!

—Mary Dickinson.

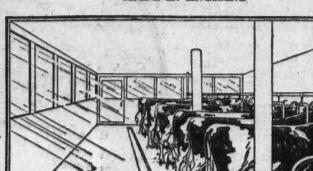

Trust him implicitly, submit to His cheerfulness, and you will find that all shall be well; that more grace will be given you; that the heavier the trial the larger will be the blessed measure of the strength. The Shepherd is leading you in the right way to His own-blessed told. Leave it all to Him.

—Alexander McKenzie.

**WINDOLITE**

*The Improved Glass Substitute*

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. **WINDOLITE** is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays so that by using Windolite artificially produced comes with health-giving rays. Therefore, the invention of Windolite has completely satisfied the long-felt want. Extensive experiments have conclusively proved that it is the most effective substitute for glass, and that it freely admits the Ultra-Violet rays, and that it has a most beneficial effect on the growth and development of plants and chickens. It is the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of Windolite has during the last six years completely revolutionized the entire industry of poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

### Stony Plain and District.

**IT PAYS TO PAY CASH,**  
Capt. R A Gosset has gone  
to Victoria.

Inga Councillors meet in  
Stony Plain tomorrow, Feb. 1.

Stony Plain Motors last  
week got in another shipment  
of New Fords.

Stony Plain Local U.F.A.  
is holding its postponed meeting  
next Saturday afternoon in  
the Royal Parlors. Much  
interest is centred on the out  
come of the discussion on the  
action to be taken concerning  
the Agricultural Society.

Mr Philip Tripp, our local  
baker, wishes to call the at-  
tention of those interested to  
the fact that he is prepared  
to give 100 lbs. of bread to  
those supplying him with 100  
lbs. of flour. See him about  
this.

The sale is reported of the  
northeast of 14—52—I by Mr  
Peter Unterschutz to Mr  
John Enders, the considera-  
tion being around \$9000.

### Camrose Falling In Line.

A bylaw is being submitted  
to the ratepayers of Camrose  
for the sale of that town's  
utilities to Calgary Power  
Co. The purchase price of the  
electric power and lighting  
plant is placed at \$120,000.

### Work Needed by Many Men.

Farmers and anyone who  
can find work for a man are  
urgently requested to get in  
touch with the Sergeant in  
charge of the Provincial gov-  
ernment relief, Civic Block,  
Edmonton.

There are many first class  
men who are anxious to get  
work on farms or anywhere  
for the remainder of the winter.  
They are willing to take  
\$10 a month or even less  
where there is just the aver-  
age winter farm work to be  
done.

### Short Course for Weed Inspectors.

A short course especially  
designed for weed inspectors  
will be offered at the Univer-  
sity of Alberta by the Provin-  
cial Dept. of Agriculture from  
Feb. 25 to March 1.

Instruction will be given in  
the interpretation of the Nox-  
ious Weeds Act, identifica-  
tion of weeds, etc. Those who  
pass the examination at the  
end of the course are eligible  
for a diploma qualifying them  
as weed inspectors, and en-  
titling them to recognition by  
those districts requiring such  
services. Applications for at-  
tendance should be made to  
Field Crops Commissioner,  
W J Stephen.

### Calendar.

JANUARY—  
31—Alberta Legislative Assembly  
meets.  
FEBRUARY—  
1—Inga Councillors meet.  
2—Meeting of Stony Plain U.F.A.  
Local.  
6—Chevrolet Chassis Demonstra-  
tion in Stony Plain, by Gen-  
eral Motor experts.  
8—Novelty dance by the Holborn  
U. F. W. A.  
9—Rumley demonstration to be  
given in Stony.  
12—Peter Unterschutz auction.  
20—Nomination for Councillors in  
Municipal Districts.

### Tomahawk Tidings.

On Sunday, Jan. 27th, Rev  
Father Keenan blessed and  
offered the first Holy Mass in  
the Church of St. Thomas the  
Apostle, at Tomahawk. This  
was built during the autumn  
months, being completed  
shortly before Christmas.

His Grace Archbishop  
O'Leary will formally dedi-  
cate this church and adminis-  
ter the Sacrament of Con-  
firmation at a future occa-  
sion.

### New Alberta Pool Creamery at Edmonton.

The inspiration of the year  
in Alberta, in advance, as Dr  
R C Wallace, Pres. of the  
University of Alberta, put it  
in 1928, was from the program  
of the Alberta Dairy Pool,  
which held its annual conven-  
tion in Edmonton last week.

There was a large number  
of delegates present from ev-  
ery district where this north

### Spruce Grove News

Mr C Ries is expected to  
arrive from Vernon in a short  
time, with a car of fruit.

An investigation is still  
proceeding into the dis-  
appearance of a quantity of oats  
from the granary of Mr Breit-  
haupt on Sunday, Jan. 13th,  
altho the Police, as yet, have  
no direct clue to the perpe-  
trators.

MacKean & Son, agents  
here for Woodland Dairy,  
have received notice of the  
Dairymen's Convention in  
Edmonton next week, at  
which there will be milk and  
cream competitions. Two sil-  
ver cups and cash prizes have  
been donated for competition  
by Woodland Dairy and other  
companies. The companies  
will purchase all exhibits at  
current prices.

### New Wheat Pool Act.

Instead of The Alberta Co-  
operative Wheat Producers  
Limited there will in future  
be The Alberta Wheat Pool.  
The change to a shorter and  
more conveniently handled  
name is provided for in a new  
bill to be submitted to the  
Legislature, repealing the old  
Wheat Producers' Act. New  
provisions as to contracts,  
membership, etc., will also be  
included in the legislation the  
Pool is asking for.

The farmer's best friend is  
The Family Herald and  
Weekly Star, Montreal. It  
costs only a dollar a year.

## They Belong To Farmers!

This Company is farmer-owned and every  
dollar of earnings belongs to farmers.

Every dollar of earnings is either paid back  
to farmers or employed in strengthening the  
Company for still greater usefulness to far-  
mers.

Showroom floor in a short time.

## Sommerfield & Mayer, SERVICE GARAGE, Stony Plain.

### Ste. Petronille

Jack Strathe, the very able  
winter sports director at the Club  
Frontenac, his friends will  
be pleased to learn, is losing  
weight. Jack runs a summer  
camp at French River in the  
fall, and seems to think the  
present job for the reason that  
he wanted to rest and draw a  
salary at the same time. When  
he has time to reflect, and this  
is seldom, he finds the job of  
operating a camp and  
handling a crowd of Indian  
guides. He finds no rest for  
doing even the light house work  
there is something down the hole there.

There are 5 districts; these are  
divided into 7 sub districts; each  
sub district entitled to one dele-  
gate. The directors were elected  
in each district by its delegates.

They are—

No. 1—Andrew Rafn, of Bon  
Acord.

No. 2—R Brown, Westlock.

No. 3—Chris Pitzler, of Stony  
Plain.

No. 4—D J Christie, Wetaskiwin

No. 5—J M Hughes, Vegreville.

cast reefs of glistening pinacles  
to the sky in one glorious chaos  
of solid rock, groundingly set-  
tled down. Then the mayor  
of St. Gregoire and the mayor  
of Ste-Petronille set out, each  
armed with a small spruce  
cutting knife. They had some fun in  
the centre of the river, solenly yank  
hands, and the ice bridge was  
declared open. It was after  
that, that the sports director  
of Ste-Petronille with his ski slopes and  
toboggan and snowshoe pros-  
pects, and also the "Catawba".

The "Catawba" is a rubble-  
stone pile of catalogued  
blocks, the floor and as window dress-  
ing, the oddest old furniture and  
quaint bed-rooms and, above all  
the same striped, silken, shiny  
chunks of crystal and opaque ice  
buried themselves in a mass,

is hailed as a great discovery.
